1. Search the Library Catalogue

1.1 Basic Search

Carry out a basic search by entering keywords into the main search box on the library catalogue homepage at <https://nal-vam.on.worldcat.org/discovery>

1.2 Search Tips

1.2.1 Use an **asterisk (*)** as **truncation** when searching for a keyword with variable endings. For example: *paint** broadens a search to include *paints*, *painted*, *painting* and *painter*.

1.2.2 For **variant spellings**, use a **question mark (?)** in place of a character.

For example: search *Color?* to include both *color* and *colour* in your search results.

1.2.3 Use **quotation marks** to search for an **exact phrase**, for example *"sustainable architecture"*

1.2.4 Narrow or broaden your results by combining **Boolean operators** AND, OR and NOT with your keywords, for example:

Constable AND Clouds

All search results will include both keywords.

Romantic era OR Romanticism

Broadens search results, particularly helpful when searching for synonyms.

Illustration NOT Fashion

Search results will exclude titles on fashion illustration.

1.2.5 Use **Search Tools** (in the left side bar) to refine your search results by Format, Author, Publication Year, Subject Terms, Language, Source Database and Held by Library.

The screenshot shows the V&A library catalogue search results for the query "Constable AND Clouds". The left sidebar contains search filters, with a red box highlighting the "Format" section. A red arrow points to the "Book (20)" option. The main results area displays a book titled "Constable's clouds: paintings and cloud studies by John Constable". The book details include authors (John Constable 1776-1837, Edward Morris, National Galleries of Scotland, National Museums and Galleries on Merseyside, John Gaug, 1938-2012, Edward Morris 1940-2016, National Gallery of Scotland, Walker Art Gallery), subjects (Clouds in art, Clouds Depictions Exhibitions), and availability (Print Book ©2000, [Edinburgh]: National Galleries of Scotland; [Liverpool]: National Museums and Galleries on Merseyside, ©2000). The book is available at the Victoria and Albert Museum, National Art Library GC/SEC General Collection: Second Floor Store, with the call number 604.AA.0976 and is available at 2 locations.

1.2.6 After clicking on a title to view a record, use **Browse the Shelf** at the bottom of the screen to explore our diverse general collection or to browse within a special collection.

The screenshot shows a library record for the book "Ramesh Bisht: sculpting in space". The record includes a cover image, title, authors (Vinod Bhardwaj and Ramesh Bisht), and publication information (Print Book 2016, New Delhi: Mansi Prakashan, 2016). It also lists metadata such as ISBN, OCLC Number, and LCCN. The availability section shows that the book is available at the National Art Library. Below the main record, the "Browse the Shelf" section is highlighted with a red oval, displaying four related book covers: "American style and spirit: fashions and lives of the Roddis family, 1850-1995", "Harrodsburg", "Gerald Laing: catalogue raisonné", and "British silver: State Hermitage Museum catalogue". Each item in the shelf includes its title, authors, publication year, and availability status.

1.3 Advanced Search

The Advanced search option can improve the relevancy of your search results and is linked from the top menu bar and also under the main search button on the catalogue homepage at <https://nal-vam.on.worldcat.org/discovery>

Select **Advanced Search** and you will be presented with the Advanced Search indexes

Advanced search

Search for

Search index	Search terms	Operator
Keyword (kw:)		AND
Title (ti:)		AND
Author; Auctioneer & Auction Ho...		+

You can combine up to five indexes and/or apply filters (peer-reviewed articles, format, publication year) to retrieve a more precise set of search results.

You can also choose the sort order (best match, date – oldest or newest first, etc.) and restrict to one or more of our sites (e.g. South Kensington: National Art Library).

The Advanced Search table describes some of the key **Search Indexes** available and how to use them. Each **Search Index** has a keyword option and a phrase search option.

Advanced Search table:

1.4 Expert Search

Expert search labels allow you to refine and enhance the relevance of your search results. Combine your keywords with a **search label** in the main search box on the library catalogue homepage. Some useful examples are listed in the table below.

Expert Search Table:

Type of Search	Search Label	Example
Author	au: [keyword]	<i>au: Germaine Greer</i>
Barcode	bq: [number]	<i>Bq: 38041801000696</i>
Date of Sale [for auction catalogues]	ds: YYYYMMDD	<i>ds:20170509</i>
Genre	[keyword] ge= [genre keywords]*	<i>Potter ge= children's*</i> <i>food ge= artists book*</i>
Local reference number (such as MSL/)	nt: [reference number]	<i>nt: MSL/1970/2604</i>
NAL Pressmark	nu: [exact pressmark]	<i>nu: 603.AT.0124</i>
Reference books	[keyword] b8: Reference	<i>Dictionary b8: Reference</i>

There are two types of expert search: Keyword and Phrase. To search by keyword, use a colon (:) after the search label. To search for a phrase, use an equals sign (=) after the search label. A phrase search will search for every keyword from left to right in order.

- For a **title phrase search**, exclude the initial articles *A, an, the* and their equivalents in other languages. *For example: ti=Art Journal*
- For an **author phrase search**, enter the name in inverted order if using the equals sign; *For example: au=Greer, Germaine*

Further guidance on searching the catalogue can be found in this [WorldCat Discovery guide](#).

9. Request NAL ‘appointment only’ Material (South Kensington)

Some items in our collections cannot be retrieved immediately due to:

- Conservation and preservation policies. The item may be stored remotely, or we need to make a condition assessment due to the fragility of the item.
- High value or uniqueness of an item. Senior curatorial authorisation is needed.
- Audio/Visual material that may not be compatible with onsite equipment, so we need to first check that the item can be viewed.
- NAL material (e.g. elephant folios) held in another study room. See [section 12](#).

For these reasons, you will see a message advising you that you need to make an appointment.
